

Morningstar Overall Rating⁺ ★ ★ ★ ★

1. BU Global Flexi Allocation Fund ("the Fund") is a sub-fund of BU Investment Series OFC ("the Company"), which is a public open-ended fund company ("OFC") (business registration number 72687438) regulated under the laws of Hong Kong, with variable capital and limited liability and segregated liability between sub-funds.

2. The Fund invests in emerging markets and may be subject to higher liquidity and volatility risks.

3. The Fund invests in debts or fixed income securities are exposed to interest rates, credit/counterparty, downgrading, volatility and liquidity, valuation and sovereign debt and credit rating risks which may adversely affect the price of the debt securities.

4. The Fund is subject to equity markets risk such as changes in investment sentiment, political, economic conditions and issuer-specific factors which may adversely affect the fund value.

5. The Fund may invest in below investment grade and non-rated debt securities, which are subject to greater volatility and liquidity risks than higher-rated securities.

6. The directors may at its discretion make distributions from income and/or capital in respect of the distributing classes of the Fund. Distributions paid out of capital amount to a return or withdrawal of part of the shareholder's original investment or from any capital gains attributable to that original investment. Such distribution may result in an immediate reduction of the net asset value per share.

7. In terms of currency hedged class shares, adverse exchange rate fluctuations between the base currency of the Fund and the class currency of the currency hedged class shares may result in a decrease in return and/or loss of capital for shareholders. Over-hedged or under-hedged positions may arise and there can be no assurance that the currency hedged class shares will be hedged at all times or that the manager will be successful in employing the hedge.

8. RMB is currently not a freely convertible currency as it is subject to exchange controls and restrictions. Non-RMB based (e.g. Hong Kong) investors are exposed to foreign exchange risk and there is no guarantee that the value of RMB against the investors' base currencies (for example HKD) will not depreciate. Any depreciation of the RMB could adversely affect the value of investors' investments.

9. The Fund may acquire financial derivative instruments for hedging and investment purposes. Given the leverage effect embedded in financial derivative instruments, the Fund may be exposed to significant losses.

10. Investors should not make an investment decision based solely on this material.

OBJECTIVE
